## ABOUT ME

---

I am an ambitious, creative and self-motivated pharmacist having a master's degree in pharmaceutical sciences. I graduated with an excellent grade in both bachelor and master degrees; (91,9/100) and (3,88/4), respectively. I am seeking an opportunity to get a scholarship in order to complete my Ph.D. I hope to share my experience in pharmaceutical and medical research and to provide myself a greater chance of using my knowledge with total dedication. I am aiming to grow and looking to add some new and fresh ideas that can help out the project I would work on.

## WORK EXPERIENCE

---
